

# I'll Be Remembering

Liberty X

Seems like you can read my mind,  
When I think of you, you're on the line.  
DON't know where I end and you begin  
It's feeling like we're in the same skin  
DON't need to tell you what I like  
You know exactly what to do  
You can find your way alright  
I cherish all the things we've been through

In the ride  
Cruisin' through the night  
Leave the world behind us  
Nothin' in the way now  
In the dark  
Sleep beneath the stars  
Just to spend more time with you

I'll be remembering  
Lookin' back on how we would do everything  
Together and somehow you would know little things  
All about me  
I know it was meant to be  
Doesn't matter what they say or do  
I will always be right here for you  
And I know you will  
Come through for me  
Stayin' tight cuase we're real.

Reminiscing 'bout the day  
You took a walk around my way  
Talkin' in the warm sunshine  
I fell into your brown eyes.  
Something came over me  
I felt as though I couldn't breathe no  
I think I lost myself right then  
Never wanted to be found again no

In the ride Cruisin' through the night  
Leave the world behind us  
Nothin' in the way now  
In the dark  
Sleep beneath the stars  
Just to spend more time with you

And I know (I know)  
That we only do what we feel  
Now you know (You know)  
That we're stayin' tight that's for real  
Now I know (I know)  
That we only get what we give  
Now you know (You know)  
That it's true as long as we live
