

Practise What You Preach

Liberty X

Thing you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
You better take a look
Cause baby I'll be waiting
Don't play hide and seek
Better practice what you preach
They say that love is blind
But it's only for a short time
Couldn't see the woods for the trees
Took me for granted but
Now I smell the coffee

Woke up, no more blindfolds
I've got news for you

Thing you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
You better take a look
Cause baby I'll be waiting
Don't play hide and seek
Better practice what you preach

So you're hanging with your friends now
Expect me to come runnin'
It's like we speak a different language
I say no, you say yeah bit's it's just maybe

So you thing you've got me hooked
Well let me tell you something
Boy you aint that good
You won't catch me jumping
You better take a look
Cause baby I'll be walking
Don't play hide and seek
Better practice what you preach

Woke up no more blindfolds
I've got news for you
Preach, preach. preach..
