

# Shut Up And Dance

Liberty X

Dance, dance  
Dance, dance

I'm trynna follow the signs  
You've erected  
But you ain't giving the ride I expected  
Thought I was heading the right direction  
But we don't seem to make any ground, oh

You're talking dirty constantly  
But that ain't my philosophy

Shut up and dance with me  
Let the rhythm show you  
I'll let you take the lead  
Don't take it slower  
I like the way it feels  
When you start to touch me  
Don't want no romance  
Just shut up, shut up and dance

Dance, dance  
Shut up and dance

I like the way you look stop staring at me  
I see you've got the goods  
That could make me happy  
I like the sound of your voice  
But I'm tired of talking  
I want what you want  
In time, uh uh

You're acting flirty constantly  
Let's get to where we're gonna be

Shut up and dance with me (With me oh)  
Let the rhythm show you  
I'll let you take the lead (I'll let you take the lead)  
Don't take it slower  
I like the way it feels (I like the way it feels)  
When you start to touch me  
Don't want no romance  
Just shut up, shut up and dance

Dance, dance  
Shut up and dance

Don't want no romance  
So shut up and dance  
Don't want no romance  
So shut up, shut up and dance  
Don't want no romance  
So shut up and dance (shut up and dance, oh)  
Don't want no romance  
So shut up and dance

Shut up and dance with me (Hey)

Let the rhythm show you  
I'll let you take the lead (I'll let you take the lead)  
Don't take it slower  
I like the way it feels (I like the way)  
When you start to touch me  
Don't want no romance  
Just shut up, shut up and dance (Shut up)  
(And Dance)

Shut up and dance with me (Oh no romance)  
Let the rhythm show you  
I'll let you take the lead (I'll let you take the lead)  
Don't take it slower  
I like the way it feels (I like the way, the way)  
When you start to touch me  
Don't want no romance  
Just shut up, shut up and dance (Shut up)

Shut up and dance with me (Shut up and dance)  
Let the rhythm show you  
I'll let you take the lead
