

## Kill Your Guts Out

Lich King

It's time to die  
so pick up a corkscrew,  
gouge out your eyes and  
turn it to red goo  
open a vein and bang on the walls  
leaving a scene and the neighbors appalled

suicide's met with an absolute glee  
blind all your life  
you can finally see  
gouging your abdomen with a dull spoon  
smashing your brains out all over the room

writhing in gore and insulted in wrath  
high guest of honor at your own blood bath  
go on and show us what death's all about  
grab a fork and a knife and just  
KILL YOUR GUTS OUT!

you cant make me live my life  
you cant make me buy my time  
you cannot help me scream bye  
you can't make me wait to die

ramming an ice pick in the back of your skull  
you drink blood as it punctures your throat

.....
