

Dancing With The Devil

Life of Agony

And you just might dance with the devil by the light of the room
But I guarantee that you'll think of me with everything that
you do

But I can't believe you wanted to see How life would be without
you and me

My world would be over (6x)

I can't try anymore, because I've done it all before I'll give
you time to make up your mind But don't take too long if you know
for sure And although I may not believe in my religion totally
I find myself praying that one day soon you will come back to
me

My world would be over (6x)

And you must face your own decisions from day to day I'll ask you
once: 'Do you think you can live with yourself this way?'

[solo]

My world would be over (6x)
