

Don't Bother

Life of Agony

Bitch, bitch such a lonely bitch, bitch sitting
On my bed-more lonely then you know
Wish, wish-
Wish I could've been something
More than this-
Something I could've shown
Missed, missed-
Wish I didn't slip, slip-
Wish I didn't piss-
Off everyone I know
Twist, twist-
Twisting off my head,head
Set it on the shelf-
Gone as far as I can go

And I was lost-all along
So don't bother, don't bother

Wrist's slit-
Think I better sit, sit-
Time to catch
My breath and watch the river flow
Shit, shit-Think I wanna stick, stick-
Don't think I
Wanna dismiss all I have known
Restless-
Look at this mess, mess
Sick of all this death-
Everywhere I go
Rest, rest-
Think I failed the test, test
Sitting on my bed-
More lonely than you know

And I was lost-all along
So don't bother, don't bother
And I was lost-all along
So don't bother, don't bother

And take me-take me away
And give me-and give me-and give me a place
Such a lonely

And I was lost-all along
So don't bother, don't bother
And I was lost-all along
So don't bother, don't bother

I was lost-all along
