

Sea shells raise hell to the soles of my feet
Why don't you open your minds to the sweet?
I tripped and fell down...

Falling down deeper, down deeper within
Love me and I'll love you so make love to me
I tripped and fell down...

Falling down deeper, falling down deeper, deeper
There's only one way to fall
Life's an illusion, lost in seclusion
Life can be groovy tasty to all

I tripped and fell down...
