Aftermath

Lifehouse

We have kept a light on through the trouble Treaded water - in a sea of tears Now I'm shooting arrows across your night sky Trying to land in your atmosphere

If we can make it through the storm And become who we were before Promise me we'll never look back The worst is far behind us now We'll make it out of here somehow Meet me in the aftermath Oh, meet me in the aftermath

There's so much more to life than all of the hours Moments that just slip beneath our feet In the times that we put it all on the table And help feels too far beyond our reach

If we can make it through this storm And become who we were before Promise me we'll never look back The worst is far behind us now We'll make it out of here somehow Meet me in the aftermath Oh, meet me in the aftermath

If we can make it through this storm And become who we were before Promise me we'll never look back The worst is far behind us now We'll make it out of here somehow Meet me in the aftermath Oh, meet me in the aftermath Meet me in the aftermath
