

# Barricade

Lifehouse

I can feel you step away now  
Subtle but these things I've grown to learn  
It's in the way you're moving hearts around  
But I'm climbing on top  
Right over your barricade  
Never gonna stop  
There ain't no keeping me away

Did you think I wouldn't notice?  
When you're building walls outside yourself  
When your words leave me defenseless  
I'm climbing on top  
Right over your barricade  
Never gonna stop  
There ain't no keeping me away

I'm in your blind spot now  
Falling through your cloud  
Reaching for you inside out  
To bring you back around

Now I'm right back where I started  
Here to give you the best of my love  
Just when you think I'll walk away now  
I'm climbing on top  
Right over your barricade  
Never gonna stop  
There ain't no keeping me away  
There ain't no keeping me away
