

# Better Luck Next Time

Lifehouse

Sometimes we fall  
Ain't nothing new to me  
Don't get me wrong  
I must say you gave up for this time now

Stop tell me where you going  
Maybe the one you love isn't there  
You're going under  
But you're over it all so you don't care about all that I had to see  
I'd watch you wait until you come around  
Around

Don't close your eyes  
You need to see it all  
It's no surprise  
That they break you down  
At least they won't give you up

Stop tell me where you going  
Maybe the one you love isn't there  
You're going under  
But you're over it all so you don't care about all that I had to see  
I'd watch you wait until you come around

It's all wonderful  
Living happily  
To lose it all  
Think you have everything

Stop tell me where you going  
Maybe the one you love isn't there  
You're going under  
But you're over it all so you don't care about all that I had to see  
I'd watch you wait until you come around  
Around

Stop tell me where you going  
Maybe the one you love isn't there  
You're going under  
But you're over it all so you don't care about all that I had to see  
I'd watch you wait until you come around  
Around
