

Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day

Crawl from the cracks and hit the sky
With the sun doing cop wheels in my eyes

Role down scroll down suck it in
Take a one way trip on summer skin now

Today's
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day

There's a hole in my head where you come in
Can't believe I let you in again yeah

Cellphone call and set it free
Better run, run, run keep away from me now

Today's
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day

Today's
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day
Move on, move on, move on yeah, move on
Move on, move on, move on yeah, move on day
