Lifehouse

How long have I been in this storm?

So overwhelmed by the ocean's shapeless form Water's getting harder to tread

With these waves crashing over my head

If I could just see you

Everything would be all right

If I could see you

This darkness would turn to light

And I will walk on water

And you will catch me if I fall

And I will get lost into your eyes

And everything will be all right

And everything will be all right

I know you didn't bring me out here to drown So why am I ten feet under and upside down Barely surviving has become my purpose Because I'm so used to living underneath the surface If I could just see you Everything would be all right If I could see you This darkness would turn to light And I will walk on water And you will catch me if I fall And I will get lost into your eyes And everything will be all right And I will walk on water And you will catch me if I fall And I will get lost into your eyes And everything will be all right And everything will be all right
