Liferuiner

People of the world
Broken, Poor, Define Filthy.
Livin' life on their knees for your lies and deceit
BUT
I do remember days when i was so blind
...And refused to see
Refused to see everything in front of me

We dig our own graves with the money we pay
Funding streets ripped BENEATH OUR FEET
Open up your eyes and see

They're liars, Facists
The murder of everything

I don't know how you sleep at night
With our blood on your hands
And all the years that passed us by

I do remember days when I was so blind and refused to
see
Everything in front of me

No, no waking up, with eyes glued shut, Our Democracy
dies,
No, no waking up, with eyes glued shut, when will we
live again

Together we are the enemy
We are the enemy
The enemy
