

## Northbound Breakdown

Lifetime

Across the stations it's a fact there ain't no place left to stop  
Two far away for me to hold cupboards empty t.v.s sold  
Come along come down and see come down your stairs i'm waiting.  
Almost time for us to go so won't you open up your door

[Chorus]

I hope your in your car right now turning this shit up so loud  
I hope your in the mood to tune into my favorite station.

Across the nation it's a fact you ain't never coming back  
Car is running out of gas push it up the overpass  
You stayed inside to long so come along just come on you stayed  
away  
Too long so i wrote for you this song

[Chorus]

I hope your in your car right now turning this shit up so loud  
I hope your in the mood to tune into my favorite station.

Sweetie pie come along come along come down your stairs  
Don't make me wait to long come along cuz summers here
