

Your Own Fault Baby To Treat Me The Way You Do

Lightnin' Hopkins

Your own fault, baby, treat me the way you do

It's your own fault baby, treatin' me the way you do
It's your own fault baby, darlin' in treatin' me the way
you do
You know I did everything for right, I did everything I
could to help you

Whoa you once said that you loved me, yes but I found out
you were lyin'
Yes you once said that you loved me, found out you were
lyin'
Well you know you can't quit me black woman, and there
ain't no need in you tryin'

Whoa but still you my baby, don't make no difference what
you may do
Yes you still my baby, don't make no difference what you
may do
Yes I know you know little woman, how long I been in love
with you
