

Banner (acoustic)

Lights

Maybe it's bricks and mortar now, whether or not they run it down

I don't want anything to shake that shape away
No one told us which way to come, nobody mapped oblivion
So I go growing roses in the disarray

Just like most, falling head in
'Til my ghost fills the bed in

So lift it up like a banner
Hold it up over me
If this war is never ending
I'll take this love down with me
down with me

I don't need fate to give it time,
it doesn't take pain to change your mind
No weapon can sever the soul from me
Not the sorceress, not the money
All my cleverness, all my cunning

So lift it up like a banner
Hold it up over me
If this war is never ending
I'll take this love down with me
Down with me

It's around me in my surroundings
It counts me when it starts the counting
In the chaos there is a standard
I'm carrying it like a banner

So lift it up like a banner
Hold it up over me
If this war is never ending
I'll take this love down with me
Hold it up over me
If this war is never ending
I'll take this love down with me
