

Don't Go Home Without Me

Lights

This is the song I will sing to you
When you're old and tired
I will sing it to remind you
That I'm old beside you

And if you're tired of hearing my voice
I'm gonna sing it to you anyway
Cause I know that if we made it this far
Those differences I won't put away

And I'll sing,
Oh it's amazing that you're here
So alone I would be
In a world that you're not near
Don't go home without me

So if our bodies get ugly
And our hearts stop beating
Our house is crumbling under me
And our kids start leaving

I hope you know I appreciated
You in every possible way
All of the little things that you did
They got me through the hardest days

And I'll sing,
Oh it's amazing that you're here
So alone I would be
In a world that you're not near
Don't go home without me

You know that I'll be hanging around
Every mighty mile
And when you call me I'll be right down
And we'll go out in style, in style

And I'll sing,
Oh it's amazing that you're here
So alone I would be
In a world that you're not near
Don't go home without me
