

It's Over Casanova

Lights

Cheap words falling out of your teeth
Rolling off your tongue like candy
He hurts, she hurts, you hurt me once
I won't say it again
Now we're just friendly

With the love gone sour
I lost my appetite
There's no more flavor
Tuck in sweet now, fix it some how

Don't casanova me,
I'm over you
It's over obviously
Don't put your sugar on me
It's too late to sweeten this, baby

Hey casanova, it's over
Cheap words like these will rot your teeth
With all the sickly sweet nothings
Your speech is good enough to eat
But it won't fill me up when I am lonely

With the love gone sour
I lost my appetite
There's no more flavor
Tuck in sweet now, fix it some how

Don't casanova me,
I'm over you
It's over obviously
Don't put your sugar on me
It's too late to sweeten this, baby

Hey casanova, it's over

Don't casanova me,
I'm over you
It's over obviously
Don't put your sugar on me
It's too late to sweeten this, baby

Casanova me,
I'm over you
It's over obviously
Don't put your sugar on me
It's too late to sweeten this, baby

Hey casanova, it's over
