

Lucky Ones

Lights

It's you and I against the world hitting every green
And living like we always told that we would
Not without the accidents
But I got a good feeling
Even if the points we're broken we could
Who knows, doesn't matter anyway
Let's go, you and I will be okay

Cause after all this time
Still don't know where we're going
But look how far we've come
And as long as you're just as lost as I am
I'll hold you in the morning
Like we're the lucky ones

I'll be shy, could end the world
So I could feel it all over
I live off of foolish motions we do
Maybe we're invincible
Or we're sleeping on clovers
All of it's a wicked moment with you
Who knows, doesn't matter anyway
Let's go, you and I will be okay

Cause after all this time
Still don't know where we're going
But look how far we've come
And as long as you're just as lost as I am
I'll hold you in the morning
Like we're the lucky ones

Hey, we made it this far
I keep on directing
No one knows where we are
We're just guessing
Hey, we made it this far
I keep on directing
No one knows where we are
We're just guessing

Cause after all this time
Still don't know where we're going
But look how far we've come
And as long as you're just as lost as I am
I'll hold you in the morning
Like we're the lucky ones
You're just as lost as I am
I'll hold you in the morning
Like we're the lucky ones, lucky ones

Hey, we made it this far
Like we're the lucky ones
Like we're the lucky ones
