

# Meteorites

## Lights

Perseids lead us out to where the money is  
where kings would live  
Both of us are leaving town when we get old enough  
We're moving up

We are gonna see greater heights  
They'll put our names up in neon light  
Rolling volcanoes in the night  
Glowing in the dark like meteorites  
Like volcanoes in the night  
We'll rolling like meteorites

Mama said they haven't even seen nothin' yet  
Dont you forget  
Lately you've been breathing fire in your sleep  
I feel the heat

We are gonna see greater heights  
They'll put our names up in neon light  
Rolling volcanoes in the night  
Glowing in the dark like meteorites  
Like volcanoes in the night  
We'll rolling like meteorites

The greatest sights that I've ever seen  
Anime eyes and big limousines  
Hey maybe we sound young and naïve  
Or maybe we just want to believe

We're volcanoes in the night  
We're rolling like meteorites

We are gonna see greater heights  
They'll put our names up in neon light  
Rolling volcanoes in the night  
Glowing in the dark like meteorites  
We're volcanoes in the night  
We're rolling like meteorites
