

Up We Go

Lights

Here
In a familiar place
we've got our heads down
and then we pretend its cause the night is dark
and running out of space
for us to run around
but its a dead end and moneys tight

and its been a long time of this
something has got to give

everyone here is ready to go
its been a hard year with nothing to show
from down this road
its only on we go
on we go
everyone here is ready to go
its been a hard year and i only know
from down this low, its only up we go
up we go

lets get on another flight
maybe set out to sea
kick it up and shake our fists at it
because that is harder to come by
than it is to breathe
when youve gotta make or break for it

cause its been a long time of this
something has got to give

everyone here is ready to go
its been a hard year with nothing to show
from down this road
its only on we go
on we go
everyone here is ready to go
its been a hard year and i only know
from down this low, its only up we go
up we go

nothing gives easy
easy gives nothing
im just tryna' keep income coming in
dawn is bound to break
when the night is done
always darker days before brighter ones

everyone here is ready to go
its been a hard year with nothing to show
from down this road
its only on we go
on we go
everyone here is ready to go
its been a hard year and i only know
from down this low, its only up we go
up we go
