

## Midnight Surprise

Lightspeed Champion

Shoot me into sleep  
Your beauty is so close to me  
And even better still, warm nights and the chill  
Creeping down my bones, reminds me I'm alone  
My sweet midnight surprise, staple down my eyes  
Stars I cannot see, take me galaxy  
Deeper in the zone, 2-player combo mode  
Creeping down my bones, reminds me I'm alone  
My sweet midnight surprise, staple down my eyes  
Stars I cannot see, take me galaxy  
Ejacquantumbreeze  
And even better still, warm nights and the chill  
Creeping down my bones, reminds me I'm alone  
My sweet midnight surprise, staple down my eyes  
Stars I cannot see, take me galaxy  
Deeper in the zone, 2-player combo mode  
Creeping down my bones, reminds me I'm alone  
My sweet midnight surprise, staple down my eyes  
Stars I cannot see, take me galaxy  
Ejacquantumbreeze! Even in the sea  
Replace all meaning, 'I-spy'  
Fuck, I think she just saw me, stop hiding in the sea  
Shit, my midnight surprise has found out all my lines  
Crunch time, night time, palm luxuries which I mistake for life  
Don't talk to me, stay away unless you want me near you  
I'm waiting in silence and cloaking my violence  
You, almost encourage my happiness, but I know best  
Wake up, smell the semen, this will never happen for you  
Evil waits inside your home and shakes you through and through  
Oh, wake up, princess  
I guess, deep down, my heart is not as pure as it was  
And my food is ruined, the freezer doorway to above  
I'll fire in the sun, I'm dying just for fun  
And what is left of this?  
My fare is calling down for you all to go away, forget the fall  
exists  
I'll fire in the sun, I'm dying, just for fun  
As I lay in bed, wrapped in cold sweat, just take me now  
Shoot me into sleep
