Whispering Ron Vs. Maz

Lightyear

I couldn't say I miss you, as much as I want to
(I'll buy that boat)
I couldn't say I miss you, as much as I want to
(The red one with)
I couldn't say I miss you, as much as I want to
(The little engine)
I couldn't say I miss you, as much as I want to
(I don't think that)
[I go to you]
I couldn't say I miss you, as much as I want to
(Two hundred pounds is)
[You come to me]
I couldn't say I miss you, as much as I want to
(A lot of money)
[Us together]
I couldn't say I miss you, as much as I want to
(It will make me happy)
[Leave and flee]
I couldn't say I miss you, as much as I want to
(Just like that time)
[Some people]
I couldn't say I miss you, as much as I want to
(I did a shit)
[Narrow minded]
I couldn't say I miss you, as much as I want to
(On Five Knuckle's van)
[To have our place]
I couldn't say I miss you, as much as I want to
(I looked down and)
[We'll have to find it]
I couldn't say I miss you, as much as I want to
(Saw that it was good)

A half-hearted hello
Slow motion like Wash & Go
But I've figured out falling
But I miss your snoring
But not the games
Scared of you and aeroplanes
One could kill me
And one might make me sick

I'm feeling damaged myself
I want my friends to be near
Think I need some help
This life I know can never steer
I'm feeling damaged myself
I want my friends to be near

To be near
I'm losing this, I'm losing focus
All I ever wanted
To be near

Scared on my own
In my home town
Everybody's face is

Your face is
Always there
Always there
I never said I could handle this
Forever care, forever miss

I'm feeling damaged myself
I want my friends to be near
(Always there)
Think I need some help
This life I know can never steer
I'm feeling damaged myself
I want my friends to be near
(Always there)
Think I need some help
This life I know can never steer
I'm feeling damaged myself
I want my friends to be near
(Always there)
Think I need some help
This life I know can never steer
I'm feeling damaged myself
I want my friends to be near
(Always there)
Think I need some help
This life I know can never
