

# Life's Zombies

Lil B

There's so many zombies  
Fuck man, we gotta go  
I-I just gotta go  
I got-I-I can't get away from this  
So many vampires  
Just dealing with these  
Inner and outside demons, they just won't leave us

Dead zombies  
Clips with the handguns  
Red herb, blue herbs, green herbs  
Follow me into the room  
Another puzzle  
Now I'm feeling doomed  
Who this boss is?  
I'm shootin' shotgun'  
Reload  
Can't see through the darkness  
Scarecrows  
Walk down the stairs  
Niggas is hatin'  
Experience  
Audience  
Perhaps you'll help  
If you ain't  
Nothing else  
Every situation you look  
Fear in it's eyes  
Life's puzzles  
Re-routing the game when you're 25  
Yes it's still, with my team collecting items  
Need a flashlight to get inside it  
Break through the windows  
Go through the sewers  
It's monumental (yes)  
My senses  
Money back  
Trying to save my life  
Running to the right  
Searching all my life

Resident Evil, I'm loading up my handgun, for all these life zombies  
Resident Evil, I'm loading up my handgun, for all these life zombies  
Resident Evil, I'm loading up my handgun, for all these life zombies  
(Just trying to live my life in peace)  
Resident Evil, I'm loading up my handgun, for all these life zombies

Let me  
Monetize it  
The zombies are  
Burning  
Buildings  
Feel like I'm trapped in with people trying to kill us  
Meet success like a boss, disaster with honor  
Got a high rate because I'm honest  
Care about my partners  
I got medicine if you need to mix it

This blood mansion  
Can't forget your street life if you never lived it  
Keep your mind at success  
And lastly  
Disaster ain't the end of the road  
Your last breath, take it with love  
As you exit the palace, I'm mixing herbs trying to save you  
But the fate is faceless  
Ignorance and confidence, it's the Ying and the Yang  
Load the pistol up, I'm on the battlefield  
Victory is half of the pain  
It's all-over the city  
I can see it in they faces  
Dead zombies in the hood from separation  
Guarantee the nation, no  
Guarantee they play this  
Start the game over
