

## Sleep By The Bay

Lil B

It's your boy Lil B, you know what I'm talking about  
RIP Base crew you know I'm based all day based freestyle  
In my mind I stay crazy all the time  
Stay straight up on the grind, straight to the nine but  
It's in my mind, shit blows every day  
Glock sparks in my head, leave 'em they on this side are you coming o  
r ride  
I act surprised but really they know half of them guys  
Riding fuck around we living under ties  
Fuck the tires, you need ties all in them shoes see the piles  
You seemed surprised, niggas ride me I rock the flyes  
I'm up in there, top of the world top of the sides  
I ain't seeing shit had to dim the lights  
Flicked the led in my stuff and them blow up on my blunt  
Lean and hennessy I mix it, my liver started tripping  
Sit back and get it, I sip it I live it  
I do what I do, these people just pitch it  
You feel me, they just won't compete you  
I just see it, I'm rocking I'm pitching  
Solving, everybody know what's the word  
Everybody know what's the curve  
You know I keep my head on the street  
And this based world freestyle head all day  
I live but I gotta treat my head by the bay  
Keep my eyes open I sleep by the way  
Then sleep by the wave if I sleep by the day  
People know about me I sleep by my ways  
You know about me I sleep by the phase  
And I burn my heart gon' burn, I leave them senseless  
Fuck your tears bitch I don't need to be seen  
I'm coming with the infa green, infa beam and know it  
Coming through and sold you and everybody know it we roll it  
We homeless 'cause our body outside  
Embody the inside, embody you outside  
Take your shit out right  
Take your trash out at night, bitch all around  
I'ma comin' before the light I'm gonna do everything  
Real beast at everything, rock it out for Mary Jane  
Rocking out for every kid, every queer  
Based real know that I got your back  
It's Lil B for Lil Boss fuck that crack
