

# You And Me

Lil Cuete

It's just u and me (just u and me)  
Done feeling so dam low (So dam low)  
I know u looking down on me (I know your looking down)  
There's only one way to go (there's only one way to go)  
Was there for the good times there for the bad (always there for me)  
Stuck around when I made u mad (even when I made u mad)  
Know we never coming bak (always stuck around)  
Yes I know we never coming bak

All dose late nights leaven u home alone  
And I didn't even bother to pik up the fone  
And I know I got u trippin over my crazy life  
Your the only part of me that is telling me your rite  
Please except this apoligez I know I was wrong  
I'm in love with you so I can't move on  
Your like my life our blood runs through the same vains  
Were not married but we both got the same name  
I stay attracted love the way u hold it down  
Your the type of girl that I always want around  
Your so hypnotic in them things u do  
And through our good and bad times  
I always stay true

Me without you I couldn't picture it  
That's like pieces to a puzzle they just don't fit  
I swear I never felt this way before  
There is no man who in this world that's Loves u more  
U had my heart from the start it was crazy  
I remember when u said u be my lady  
We fell in love and dats how we stayed  
Cause we never let the jealousy get in the way  
I reminisce on the times we shared  
Thinking bak realizing u were always there

It's just u and me (just u and me)  
Done feeling so dam low (So dam low)  
I know u looking down on me (I know your looking down)  
There's only one way to go (there's only one way to go)  
Was there for the good times there for the bad (always there for me)  
Stuck around when I made u mad (even when I made u mad)  
Know we never coming bak (always stuck around)  
Yes I know we never coming bak

Practice makes perfect so we can't give up  
We never had a lot but always had enough  
Let's do the best we can and try to make it last

And learn from mistakes that we made in the past  
Will take it slow girl not too fast  
I'll give u anything baby girl just ask  
U make me happy on my rainy days you make

My sun come out and take my clouds away  
Your the only one for me that talks real  
I'm a gangster in love and I can't hide how I feel  
Our relationship is one of a kind  
And girl u know it's true so don't let it pass you by

It's just u and me (just u and me)  
Done feeling so dam low (So dam low)  
I know u looking down on me (I know your looking down)  
There's only one way to go (there's only one way to go)  
Was there for the good times there for the bad (always there for me)  
Stuck around when I made u mad (even when I made u mad)
