

# Best Years Of Our Life

Lil Eddie

Keeping me inside of a circle will only make me break away  
Why walk a million miles I could just take a plane  
They say play it safe it's not a race

But for me it's always now or never  
I'm in reach, do my thing  
You can promise me forever

Buckle up for the ride ahead  
There's a long way to go from here  
I'm so ready now that you're not afraid of heights  
Everyone's saying slow down  
Don't go too fast make it last  
They don't know I already know to take my time  
These are the best years of our life  
Ohh yeah

If you tell me wait that's my cue  
I will take it and go not afraid at all  
You can bet I will make you say yes  
Don't need no's anyway  
When I fall get back up

Cause for me it's always now or never  
I'm in reach, do my thing  
You can promise me forever

Buckle up for the ride ahead  
There's a long way to go from here  
I'm so ready now that you're not afraid of heights  
Everyone's saying slow down  
Don't go too fast make it last  
They don't know I already know to take my time  
The best days of our life

I wanna rule the world

I don't need wings to fly

Welcome to the best days of our life

Buckle up for the ride ahead  
There's a long way to go from here  
I'm so ready now that you're not afraid of heights  
Everyone's saying slow down  
Don't go too fast make it last  
They don't know I already know to take my time

The best days of our life
