

Bring Me Back To Life

Lil Eddie

Big fish in a small pond like a frog in a puddle
I'm hope she's staring at me not her reflection
Little did she know I'm a prince and we belong in the castle
If I could speak to her I would ask her

To bring me back to life again
A simple kiss could break right through my heart again
Would you bring me back to life
Once upon a time there lived a man that ruled the world, it's hard to believe but that was me
Would you bring me back to life (life, woahh yeah)

Thinking of ways to convince her that fairytales do exist yeah
If she could break the spell our love would be a story book
You don't have to wait for the right day (let's rewrite the pages)
I'm ready to show the world we'll rain on our parade (soo)
Baby hurry come and wake me from this deep sleep
I've been living in this nightmare feels like for a million years

To bring me back to life again (again)
A simple kiss could break through my heart again
Would you bring me back to life
Once upon a time there lived a man that ruled the world, it's hard to believe but that was me
Would you bring me back to life

There's nothing difficult [?] just press your lips against my lips
[?] I need a cpr I wanna feel my pulse again
Don't be scared to give it, you can make life run through my veins again
[?]

To bring me back to life again (ohh yeah)
A simple kiss could break right through my heart again (break through my heart)
Would you bring me back to life (life)
It's a perfect time to live and mend and rule the world inside
to believe I was there

Would you bring me back to life (life)
A simple kiss could break through my heart again (ohhh)
Would you bring me back to life
Once upon a time there lived a man that ruled the world, it's hard to believe but that was me
Would you bring me back to life

Big fish in a small pond like a frog in a puddle
She broke the spell just in time and brought me back to life
