

Cold Turkey

Lil Eddie

Thought I could handle this
Searching for evidence
To catch him red-handed
But now it's blowing up in my face
Found out 'bout the other chick
Wasn't a coincidence
I knew all along
But didn't wanna live up to it

Know soon I'm gonna hit the fan
Should've left when I had the chance
But I keep fallin' into his lies over again
Really thought he would change his game
After he made mistakes
It's time I let you be
I'm-a have to cut you off cold turkey

This addiction ain't no good for me
Gotta break away a.s.a.p.
Only way that I can do it is cold turkey
I'm-a get through all the shivering
Missing your body next to me
I can't quit it, gotta quit it
Cold turkey
I can't quit it, gotta quit it
Cold turkey

I used to blame myself
Try to be someone else
Thought I could change his mind
And give him another me
Guess it wasn't worth it
There's no way to save this
Tired of sleeping with the enemy

Know soon I'm gonna hit the fan
Should've left when I had the chance
But I keep fallin' into his lies over again
Really thought he would change his game
After he made mistakes
It's time I let you be
I'm-a have to cut you off cold turkey

This addiction ain't no good for me
Gotta break away a.s.a.p.
Only way that I can do it is cold turkey
I'm-a get through all the shivering
Missing your body next to me
I can't quit it, gotta quit it
Cold turkey
I can't quit it, gotta quit it
Cold turkey

I love ya
Baby, but love just ain't enough
Staying here ain't a good look anymore
It's dangerous

With you, still be a runner-up
Told you this day soon would come
Should've took me a little more serious
'Cause I loved ya

I love ya
Baby, but love just ain't enough
Staying here ain't a good look anymore
It's dangerous
With you, still be a runner-up
Told you this day soon would come
Should've took me a little more serious
(A little more serious, cut you off cold turkey)

This addiction ain't no good for me
Gotta break away a.s.a.p.
Only way that I can do it is cold turkey
I'm-a get through all the shivering
Missing your body next to me
I can't quit it, gotta quit it
Cold turkey
I can't quit it, gotta quit it
Cold turkey
