

Favorite Ex

Lil Eddie

First Of all, you know I don't care
He can be around still I'm gonna stay (yeah)
Although I'm not with you now
You just can't reverse the heart
Ain't gonna let you go
He going to have to share

Try to hide it
Outside but in private
When it comes to touch, girl
I'm always invited
Must be worth the risk
Cause you keep running back to this
Back to this
Gotta keep it low, you can claim us
Girl, but we both know we ain't strangers
Matter of fact, I'm your favorite ex
Just so happens, I got your heart under arrest
You know it's more than sex (yeah)
Though it be the best (yeah)
Girl you keep on showing me that I'm your
I'm your favorite ex, ex, ex
Favorite ex, ex, ex,

Peeping out the blind the minute he pulls off
You got me sneaking in daily through your back door
Little words, we hardly talk
Wrinkles of clothes along the floor
And for hours and hours, I'm a be taking you down

Try to hide it
Outside but in private
When it comes to touch, girl
I'm always invited
Must be worth the risk
Cause you keep running back to this
Back to this
Gotta keep it low, you can claim us
Girl, but we both know we ain't strangers
Matter of fact, I'm your favorite ex
Just so happens, I got your heart under arrest
You know it's more than sex (yeah)
Though it be the best (yeah)
Girl you keep on showing me that I'm your
I'm your favorite ex, ex, ex
Favorite ex, ex, ex, (yeah)

You know just where your heart belongs
And I don't condone coming in between breaking homes, breaking homes
This chemistry's out of our control
As wrong as it seems I won't
I just can't seem to cut you off

I'm your favorite ex
Just so happens, I got your heart under arrest
You know it's more than sex (yeah)
Though it be the best (yeah)

Girl you keep on showing me that I'm your
I'm your favorite ex, ex, ex,
Favorite ex, ex, ex,

I'm your favorite ex
Just so happens, I got your heart under arrest
You know it's more than sex (yeah)
Though it be the best (yeah)
Girl you keep on showing me that I'm your
I'm your favorite ex, ex, ex
Favorite ex, ex, ex
