

# Heart Of Glass

Lil Eddie

Ever since we met  
boy you couldn't let go  
stuck to my hip  
yeah we click like lego  
got me so far wrapped around your finger baby  
stay on it stay on it stay on it yeah  
lovin so hot burnin up like fuego  
never want it to stop  
feelin like i hit the loto  
lookin at the clock hopin any second you don't change you playin you playin  
with fire

only say it if you mean it  
were gettin a little too serious  
see my loves fragile  
any damage i can do  
let me warn you baby  
handle me with care  
you could hurt yourself bad  
if you break my heart of glass  
go ahead if you dare  
i'ma put it in your hands  
but i'll cut you real fast  
if you break my heart of glass  
my heart of glass  
if you break my heart of glass  
my heart of glass

you can be a rock but i can make you roll hard as a stone  
care to try me if you want  
edge so sharp  
never ever get too comfortable stay on it stay on it stay on it yeah  
like a gemini i got another side i wont make you cry long as you do me right  
loving not a fight  
but if you put me in the ring  
i'ma bite  
you playin you playin with fire yeah

only say it if you mean it  
were gettin a little too serious  
see my loves fragile  
any damage i can do  
let me warn you baby  
handle me with care  
you could hurt yourself bad  
if you break my heart of glass  
go ahead if you dare  
i'ma put it in your hands  
but ill cut you real fast  
if you break my heart of glass

your not the type of girl who talk bout whats been done  
but i have have been shattered by cupids arrow  
if you let me go it'll take forever just to pick up the pieces, the pieces  
of my glass heart

handle me with care

you could hurt yourself bad  
if you break my heart of glass go ahead if you dare i'ma put it in your hand  
s  
but ill cut you real fast if you break my heart of glass  
my heart of glass if you break my heart of glass  
my heart of glass
