

# In Another Life

Lil Eddie

oohh oohh  
oohh ooohhh

I hope you miss your train  
And it suddenly starts to rain  
Cause' that would mean  
You and me have to be trapped  
In the same place

Delayed for another day  
It'd by me time and nerve  
To say  
"Halo" and "What's your name?"

Find out what your sign  
Say Gemini cause I'm  
matched with one  
That's when she kissed some guy  
As they took off in his flight

[Chorus:]  
Someone has your heart  
It's over before it startes  
Hopefully we'll meet again  
Maybe someday in Mars  
Year 3012  
First kiss be on the Moon  
Maybe we're on the wrong planet  
In song you'll be mine  
Maybe in another life  
oohh oohh  
Maybe in another life  
oohh oohh  
Maybe in another life

Walked in to a cafe  
It gotta be my lucky day  
The only seat left is next to  
Two pretty girls hip hip hurray  
It's like a parade's going on

One time my heart strings  
The other playin' a drum  
But all they singin' the same song

She stand out of a friend  
Looked at me like an alien  
We're sorry to say but  
We don't swing that way

[Chorus]

When the stars are aligned  
And your heart's on the market  
You'll find your way  
back in my arms,baby  
We're just in the wrong bodies

Next life we will be  
birds and fly  
And you'll belong  
To me...

Belooong to me..  
Maybe...  
Year 3012  
First kiss be on the Moon  
On the Moon...

[Chorus]
