

No Mad

Lil Eddie

Look at my position, I put time into listen
I'm stuck between a rock and hard place
What's causin' this division, is this some competition
Threatin' cause nobody holds way

Shaken like a leaf and fallin off quickly, but I'm feeling my worry girl for
you let me
Cause once you get to trippin', that be ammunition
For me to let you be and do me

Tell me now if I'm in your way, I don't need none of that
I'll take my own on my back baby
All the drama girl it ain't me, I don't want a second chance to see that I'm
your man or not your man

Girl don't turn me into a nomad
Cause once I leave from here I won't give a damn
Jump from girl to girl like a mad man
Back on the road again
Just like a nomad

Time is runnin' out of the hourglass
Don't sit around and wait for the last grain to pass
There's no bouncin' back once I'm packin'
Back on the road again
Just like a nomad

Just just just just like a nomad
Just like a nomad
Just just just just like a nomad
Just like a nomad

Two wrongs never make a right
But this time maybe it might
Not tryin' to throw nothin' in your face
But if you see me with a missus
Guaranteed you'd be wishin
You were back with me at your place

Girl I know the game, I play it better than you
Keep acting unaffected but you know it's true
So hide me quick to stall him cause she's a fine woman
Had about as much as I can take

Tell me now if I'm in your way, I don't need none of that
I'll take my own on my back baby
All the drama girl it ain't me, I don't want a second chance to see that I'm
your man or not your man

Girl don't turn me into a nomad
Cause once I leave from here I won't give a damn
Jump from girl to girl like a mad man
Back on the road again
Just like a nomad

Time is runnin' out of the hourglass
Don't sit around and wait for the last grain to pass

There's no bouncin' back once I'm packin'
Back on the road again
Just like a nomad

Just just just just like a nomad
Just like a nomad
Just just just just like a nomad
Just like a nomad

If you need your space, let's go our separate ways
I'll let you in, I don't want the house, the clothes
The cars and start a war again
Let's not make this harder than it has to be be be be
But if you got sense enough, then don't let me free free free

Girl don't turn me into a nomad
Cause once I leave from here I won't give a damn
Jump from girl to girl like a mad man
Back on the road again
Just like a nomad

Time is runnin' out of the hourglass
Don't sit around and wait for the last grain to pass
There's no bouncin' back once I'm packin'
Back on the road again
Just like a nomad

Just just just just like a nomad
Just like a nomad
Just just just just like a nomad
Just like a nomad
