

Start Over Again

Lil Eddie

Ohhh
Ohhh
Ohhh
Yeah

What's living without loans
What's giving without a cause
Everything has a price, yeah now it's time to pay
What's life without the fun
What's life without the pain
It's you who lives so just cry, if you want to

Another hurt and I feel it all
Another joke, then we scared to fall
Then we start over again
Thinking we can start over again
Another step out and take a risk
If it means I have you to miss
When you're torn apart

You're just so hoping you're like closer to love [x4]

Yeah yeah

So just let it rain, let it rain, let it rain
So just let it rain, let it rain my baby
Together we'll make it, we'll make it, make it
So let your own pain surprise your soul
Hoping you're like closer to love

God, it's a perfect mistake
What you're feeling is a beautiful thing
Trust me, it'll all make sense, in the end
Feel like the world's on your shoulders
You can't see the future
Well I'm here to show you
Life don't end today

Another hurt and I feel it all
Another joke, then we scared to fall
Then we start over again
Thinking we can start over again
Another step out and take a risk
If it means I have you to miss
When you're torn apart

You're just so hoping you're like closer to love [x4]

Yeah yeah

So just let it rain, let it rain, let it rain
So just let it rain, let it rain my baby
Together we'll make it, we'll make it, make it
So let your own pain surprise your soul
Hoping you're like closer to love

She told me in the middle, don't stop

Summertime came, it was hot
New chick in the pick, now you the sidekick
Found out she was always around

Now you put your heart in the lock I keep
Tryna talk to a dude like me
Let me give you C.P.R. Girl
Revive your heart

Closer to love,
You're just so hoping you're like closer to love [x3]
(yeah babe)

So just let it rain, let it rain, let it rain
So just let it rain, let it rain my baby
Together we'll make it, we'll make it, make it
So let your own pain surprise your soul
Hoping you're like closer to love
