

# Strobe Light

Lil Eddie

What just landed on the floor  
She flicks my switch systems go  
Hit me head on to the court  
Burning through my pulse  
My body is crying out for more  
More yeah

[Chorus:]

I'm attracted  
Shes pulling me close like a magnet  
But every time I reach trying to grab it  
She goes oo oo  
Like a ghost oo oo  
Like a strobe light  
Shes flashing in and up burning my eyes  
Like a strobe light  
While everything is moving in slow motion time  
Like a strobe light  
Now baby that I got your arm  
I'm a make her mine (mine)  
Everybody pulsing like a strobe light (light)  
Like a strobe light  
Like, like, like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
(Light [x7])

Never seen a girl work the floor  
The way she does  
In a blink of an eye where did she go?  
My head is spinning searching for her  
It's critical  
She's got my heart out of control

[Chorus:]

I'm attracted  
Shes pulling me close like a magnet  
But every time I reach trying to grab it  
She goes oo oo  
Like a ghost oo oo  
Like a strobe light  
Shes flashing in and up burning my eyes  
Like a strobe light  
While everything is moving in slow motion time  
Like a strobe light  
Now baby that I got your arm  
I'm a make her mine (mine)  
Everybody pulsing like a strobe light (light)  
Like a strobe light  
Like, like, like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
Like a strobe light

Like Like Like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
(Light [x7])

[? ] Running, rushing of the meter  
All my attention is now laying on her  
These feelings I can't fight  
This is isn't rocket science  
Shes pulling me under strobe light

[Chorus:]  
I'm attracted  
Shes pulling me close like a magnet  
But every time I reach trying to grab it  
She goes oo oo  
Like a ghost oo oo  
Like a strobe light  
Shes flashing in and up burning my eyes  
Like a strobe light  
While everything is moving in slow motion time  
Like a strobe light  
Now baby that I got your arm  
I'm a make her mine (mine)  
Everybody pulsing like a strobe light (light)  
Like a strobe light  
Like, like, like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
Like a strobe light  
Like Like Like a strobe light  
(Light [x7])
