

## Find My Way

Lil' Flip

Tell me why I can't see where I'm goin(No)  
when everybody else see's,where I'm comin from  
and I don't know why I travel down these dead end roads  
I gotta turn this car around-and find my way home

When you listen to my music do you feel my shit  
look I don't need punchlines cause I live my shit  
alot of cats selling they soul for radio play  
that's why we need mo' rappers like Common and Kayne  
niggaz scared to be broke so they fake it,to make it  
if my album went gold I'd still be the greatest  
back in the days I would get caught for trulency  
but now I'm puttin money back in my community  
I took my homies out the hood now they got jobs  
cause it's more to life then dodgin cop cars  
I played the block hard,now I play the pop charts  
now I'm gettin dumb money,cause I got smart

Aiiyo I never seen a man cry,till I seen a man die  
so when you talk to me look me in my damn eyes  
cause I been through it all and my scars prove it  
cause when it come to that paper homie I'm a do it  
I just rhyme part time you better know it  
these lines comin from my mind so I never wrote it  
keep my nine by my spine so I never show it  
yeah I'm addicted to pine but I never grow it  
and the reason I got signed cause I'm a poet  
half of my niggaz doin time but I'm focused  
that's why I'm stayin on my grind if you haven't noticed  
that old Cadillac transformed to a Lotus

When ya new album drop everybody ya friend  
niggaz actin like they down but I know they pretend  
I use to scrap up money for studio time  
I'm like Jay Z homie I remember my rhymes  
ain't nobody help me out when my cash was low  
bills comin too fast so I had to blow  
and I walked by faith,not by sight  
cause I know G-O-D will guide me right  
I take the bitter with the sweet,I know you feel my pain  
why we gotta get harassed when we board the plane  
I ain't tryna preach to you but I hope you relate  
even at a dead end you gotta find yo'way(Okay,Okay)

I wanna dedicate this track here to my grandparents  
ya know they stuck with me through thick and thin  
ya knah'im'sayin since day one,without my family  
ya know I ain't got no back bone man  
so I dedicate this to you and pray to God you gon'find a way...holla  
back
