

Forget The Fame

Lil' Flip

I come in the club everybody standin' on the corner
But me some weed, speed, or some marijuana
You can get it right here or get it right there
But when the laws pull up get away from 'round there
Niggas thinkin' that the nigga changin'
Just 'cause a nigga platinum be hanging
I still got the same niggas that I'm with
If a nigga owe me money we gon' shoot up his shit
I use to sell work I use to sell pints
But now I'm doing shit I gotta million in the bank
I done made a lot of moves and payed a lot of dues
Nigga if you fuck with me, you might make the news
Now niggas get on T.V then forget they partnas
The ones that keep it real come sharp with the choppas
The one who drank and lean in they house
Them lil niggas be the one who represent the south uh

I want the money
I don't give a fuck about the fame
No matter how rich I get Lil' Flip will never change
I want the money
I don't give a fuck about the fame
I do this shit so I can have some pocket change

Now every time I come back somebody went to jail
But they taught us don't go to school and fail
I didn't go to college but its money in my wallet
And I just bought a Jag '0 mileage
And I keep a clip ya know I'm strapped
And you was hatin' on me nigga you might get slapped
Ya telephone tap'ed got the (?)matter of fact
It don't look good for you to be standing on blocks
Nigga what about the cops rollin through looking
And everybody know that you sellin and cookin
So get yo mind right nigga stay out the streets
You seen what I did, now I play with these beats

I'm like a hundred-dollar bill I'm hard change
And now its funny everybody ain't acting the same
Rule number one never tell these rats learn ya business
Rule two never ever burn by bridges
I had niggas that was hatin' now they in my face
Way before "buy the car, by the house", "diamondsNyaface"
Now they see me in the streets I want to do a song
Nigga yous a hoe go back to yo home!
'Cause you ain't selling records don't get mad
'Cause you see me ballin' hard in a dropped Jag
When you see me at the source chunk up the duece
'Cause I represent the Cloverland jumpin' out my Coupe
I still be the same nigga on the scene
I'm still gone be the only freestyle king
