## **Emotional Rollercoasters (Skit)**

Lil Mama

Well there's many girls of my age group Come out of their teenage years And going into womanhood Becoming a young lady and they go threw Different like... emotional rollercoasters And when you on a rollercoaster Like in regular life you can't get off In the middle of the ride You gotta ride it out until it stops And at the end of that ride It feel like that rollercoaster was fun Even though it might had a couple of Twirls, Spins and Drops that made you cry
