

# 10 Commandments

Lil' Mo

Ladies I wrote me a manual  
How to keep your man  
These rules you must follow  
My 10 commandments (oo oo oo)  
Let me break it down for you  
Rule number 1  
Never give him someone to turn to at night  
Rule number 2  
Never bring your man around your crew  
Rule number 3  
Never call him first let him call you  
Rule number 4  
Never let him know your every move  
Rule number 5  
Never tell him about your past  
How many other lovers you've had  
How many other lovers went bad  
Make no exceptions  
If you want it to last

Girl you got to understand him  
If you want to keep your man whipped  
Follow my 10 commandments  
And he'll keep coming back for more  
And more and more

Rule number 6  
Never mix business with pleasure  
Rule number 7  
Never move in unless he tell you  
Rule number 8  
Never tell your friends about your bedroom  
Rule number 9  
Never let them know his shoe size  
Rule number 10  
Should have been rule number 1  
Cos If you give in on the first night  
Make sure you ride that thing  
Scream his name  
And he'll be yours for life  
Cos you know your excited  
(Cos you know your excited)  
And you just can't fight it  
And you wanna tell all your friends  
But you've got to make sure loves intact  
Because you want him to keep coming back

There's never no such thing as giving him to much  
Cos if you want to wed with your man  
You can never give enough  
Cos you get excited  
And wanna tell everybody  
But you've got to make sure  
Loves intact  
Then it will help you bring him back

I've been in this thing for years

It made me an animal  
Me and my girl  
Mo wrote you'll a manual  
Step by step booklet for you to keep  
Your man in place  
And out the next girls' face  
Rule number 1  
Never give a dude money  
Girl don't be a dummy  
Let the homie stay bummy  
Cos once he start,  
He don't stop,  
That's it  
And all he gonna do is spend it on the next chic  
Rule number 2  
Before you give him some  
It's your way  
Shop in a new car  
Now that what I call for play  
Now don't get me wrong  
Respect your man  
But if dude gets out of line  
Then check your man  
Rule number 3  
Should have been rule number 1  
Never go down  
Till he licks you round  
Your neck, your back, your puss and ass crack  
Rule number 4, 5 and 6  
Very important lessons  
Keep your man guessing  
Never let him see you stressing  
And if you love heres 7, 8, 9 and 10  
Never ever ever mess with his friend  
See if you follow these  
You'll have mad red to break a house on the beach  
And mad trips to Jacob  
He'll be home at night cooking you a steaka  
And he'll keep coming back for more  
On the wake up

Understand If you want to keep your man  
And you want to hold on to him  
Keep your man whipped  
Follow my 10 commandments  
Ha  
You got it  
Ha  
Keep coming back for more  
Understand  
Keep your man  
My command  
More and more and more  
More and more and more
