

## Club 2g

Lil' Mo

Ay yo, my man  
You gon' have to back up  
If you don't back up  
Ain't nobody gettin' in here  
We 'bout to shut the doors down  
Back it up, back it up right now  
Ay look, I need two lines  
We got to form two lines or nobody's gettin' in  
And there'll be no pushin', and no shovin'  
Two lines, ladies on this side  
Males on this side

We up in this piece, as if it were the last time  
Club year 2G, where we party like it's '99  
Yo, it's off the heez  
Everybody tryin' to get inside  
Yo, it's not about beef  
'cause we gon' tear the club up

(Ladies) Up in this club, a nigga will buy you drinks  
(Fellas) Up in this club, girls don't stick guys for free  
(Everybody) Up in this club, it could be hats, Timbers and jeans

Westside, throw it up  
C'mon, c'mon  
Eastside, show some love  
C'mon, c'mon

Yo, where's my peeps?  
'cause it's 1:15, and on the scene  
We're V.I.P., and Chrystal is flowin' like a stream  
Now it's time to leave  
'cause we all ready to be out now  
Now it's time to meet Laurie and them at the waffle house

(Ladies) Up in this club, a nigga will buy you drinks  
(Fellas) Up in this club, girls don't stick guys for free  
(Everybody) Up in this club, it could be hats, Timbers and jeans

If you ain't come with nobody  
You can still leave with somebody  
And we top off whatever  
You know it's that type of party  
Even if you think you ain't flossin'  
Your car may not be the hottest  
There's somethin' 'bout love, don't ya hear me  
Everybody got all night to party

See you sittin' at the bar, and I'ma send a bottle down  
Swallow down, a little liquor and livin'  
It is fully shit I'm spittin' to women, ahem  
Alcohol, gettin' it in 'em, soon as I approach 'em  
My niggas, I coach 'em, show 'em how a Don do  
True ???? bitch, I'll find you  
Out the bar, shit I got paper to blow  
In case you ain't know, you dealin' with Naam and Lil' Mo, uh oh

She makin' me hot, them lips and her thong print, uh  
We all at the bar, and we all bent  
Listen here, I'm lovin' the smell from your Cartier  
Let me holla somethin' in your ear  
If you lookin' for a little more than a one night stand  
Then I don't really think Sunny Black's the man  
Forget your man, baby we can make new plans  
If your heart's broke, I can fix it with my bare hands  
2G baby!

To my peoples up north, where you at?  
To my peoples down south, I know you feelin' that  
To my folks out west, throw it up  
To my peoples in the east, show some love  
To my people all over the world  
Tear the roof off, it's about to burn (burn, baby, burn)  
'cause we gon' bawitdaba, da bang da bang  
Diggy to up jumps the boogie, to the bang, bang, boogie da B

(Ladies) Up in this club, a nigga will buy you drinks  
(Fellas) Up in this club, girls don't stick guys for free  
(Everybody) Up in this club, it could be hats, Timbers and jeans
