

# This Love

Lil' Mo

Ain't nothing better than this right here  
I try, but I can't get through the way I feel  
I'm stuck right here, with my chest torn open  
My heart's been stolen  
And I ain't ever been the type to fall in love  
But you're like a heaven through the...  
... whenever we talk  
This drug is ...but I'm so addicted  
And it ain't no denying  
This the kind of love make you want it all  
Take you to the top, will catch you if you fall  
This the kind of love people dream of,  
And they all want something like this love  
This love, this love, and they all want something like this love  
This love, this love, and they all want something like,  
And they all want something like

I swear baby you are my secret hide  
I try to hid but baby my heart won't let me  
Not even telling me why, trying to keep you inside

And I ain't ever been the type to fall in love  
But you're like a heaven through the...  
... whenever we talk  
This love is sickening but I'm so addicted  
And it ain't no denying  
This the kind of love make you want it all  
Take you to the top, will catch you if you fall  
This the kind of love people dream of,  
And they all want something like this love  
This love, this love, and they all want something like this love  
This love, this love, and they all want something like,  
And they all want something like

You're the only one who can give it to me just how I need it  
Nothing's missing cause you completed me and  
Loosing control of my body baby cause you take me away  
And it ain't no denying  
This the kind of love make you want it all  
Take you to the top, will catch you if you fall  
This the kind of love people dream of,  
And they all want something like this love  
This love, this love, and they all want something like this love  
This love, this love, and they all want something like,  
And they all want something like  
This love, this love, this love, I want something like  
This the kind of love make you want it all  
Take you to the top, will catch you if you fall  
And I'm falling for you, whoa,  
I don't wanna get up, up, no, no  
Falling for you and I can't get up, no yeah  
Addicted to you, aha.
