

Lay You Down

Lil Rob

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

Girl you I got you and you know you got me too
So you got all of me and baby I got all of you
You always let me do anything I wanna do
Never been turned off ever since I got turned on to you
And we can hit the sack and I can lay you back
You love the way I do it do it to you just like that
Make you say ooh ooh ahh ahh with the things that I do do to ya

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

Hey baby want me to do the things that you like me to do
I'm liking it to its so exciting to do
It's like taking you on a ride to the moon
And we don't even have to leave our room boom boom
And you can lay me back and do some acrobats
I love the way you do it do it to me just like that
Make me say ooh ooh ahh ahh with the things that you do do to muah

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

La la la la la la (3x)
La la

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it
