

# Take To The Sky

Lil Rob

Your marijuana dreamer  
Floating in endless night of  
Unfulfilled Fantasies..

What's up?  
Lil' Rob  
Back on my own  
The way it should be  
The only way that it can be  
Let's take to the sky

Pack my pipa full of grieffa  
Just like my woman  
I could never leave her, cheat her, need her  
So I take a puff and another puff  
Exhale, then I take a breather  
Cause I'll take my time and do it right  
I know where I'll be tonight  
Clouding the night in my mind  
Feelin' fine, this is mine  
You wanna get high?  
Well come back another time  
When you really want to fly  
Cause I plan to take it to the point  
Where I don't know my name  
Won't even know where I'm at  
But want to come back  
To this place, where I sit  
Rather your lips will take a hit  
Prepare for lick, bring the pipe  
Or a spliff I hit is swiff  
God's gift, to this world, got me in a twirl  
In a whirl, everything I see is plural  
I'm just blazing, hallucinating  
And I can't lie, smoking crepa chocolate tie  
Lemon teardrops falling from my eye  
Take to the sky, on my natural high  
Till the day I die

Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you more

I can smoke it on my own  
Never leave me alone  
I'm in my zone  
Stoned to the bone  
Me in the dark, sittin' in the park  
Forgettin' everything that hurts my heart  
So I spark another joan, what's the poem?  
Escape from reality, into a fantasy  
That's sexuality, feel the passion  
When the smoke is passin'  
Everlastin' type of bud  
When I smoke my buds  
Takes me to a place

Smile upon my face  
Cause she sets me free  
From the things I see  
Let me be somebody, hear my plea  
It's only me, I'd rather be lonely  
Roll it on my own, cause I hold my own  
Toke it on my own, used to think of dyin'  
Now I think of flyin', like I've never flown  
Spread my wings and fly, Why lie?  
It's something that I can't deny  
Take to the sky, on my natural high  
Till the day I die

Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you more

Life is like a maze  
Gots me in a craze  
So I hide away in marijuanas maze  
Change my evil ways  
Stay half day  
Captured in the rapture  
Love the way she plays  
Gots me feelin' very loose  
Dizziness, love it when I feel like this  
I'm real like this, smokin' all this flavored shit  
It's time to call it quits  
But once again my lighter flicks  
And I take another puff  
Just can't get enough  
Of this happiness  
Smoking canibus  
Devotion to my potent potions  
What I've chosen, love it when my time is frozen  
Gots me in that motion, like I'm close to floatin'  
Takin' to the sky, when I want to fly  
And I'm sittin' on my cloud, like Joe Buton  
Don't stop now, la grafepa gone, and I'm gone  
It's the wicked, slicked, slide, type a guy  
With, it's something that you can't deny  
Take to the sky, on your natural high  
Till the day you die

Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you more

Ooooo  
Lil' Rob  
Roll me another, mmmmm  
Feels so good up in my chest  
No stress  
When I'm smoking on Maryjane  
Ooooo, she's callin' my name  
No doubt about it  
Yeah, yeah, yeah  
Take to the sky

Take to the sky, of the natural high  
Loving you more till the day I die

Take to the sky, of the natural high  
Loving you more

Take to the sky, yea
