Protector

The other thing is this I want you to learn. I want you to go around all over these streets and make yoursel f a protector. You go in and you make sure these guys are all safe okay, you o rder them an order of protection, for a small nominal fee. And that's the way you do it, you walk in and you tell 'em, "Hey, you know we're going to take care of your business but yo u got to pay us X amount of dollars per week." So you collect f rom them, you bring it to us, we give you your peice and your end of the money for your famil y, and then you go up and up and up the pole.
