

Leanin' Off Dat Yurple

Lil Wyte

My moneys like green and my greens like purple
My blue eyes are red cuz I'm leanin off dat Yurple
Yeah, yeah that yurple got my blue eyes red
Yeah that yurple got my blue eyes red

I'm leanin on da yurple feelin like Towlie (I'm so high right now)

I love comin to Cali

I woke up this morning and fixed myself a cup of some of that yurple stuff

(What's yurple stuff and how do I go about tryin to get me some)

Well first you gotta go and get two o's of some yellow

Three o's of purple a two liter sprite and mix'em together (that's it?)

That's it yep pour it over some ice In about 15 or 20 minutes you'll be feelin nice

And that's one expensive bottle of sprite can you afford it?

I'll chug it till its all gone then I'll go and get some more of it

If you wash it down with that purple jammy jammy too

You'll slap your mammy and tomorrow you'll be askin' me for more

I spend so much money on drugs and clothes

I gotta be high fresh when I walk out the door

Cuz you know I'm fuckin amazing you can smell when I'm blazin

I'm white as fuck but my eyes do resemble those of an Asians

I can persuade you to smoke I'm gonna convince you to drink

I'm your conscience on your bad side that don't let you think

We gonna kick this shit all night drink yurp till daylight

I work light and play hard and that should be the way of life

I keep my composure I never let it get the best of me

When something is stressin me I know that its god testin me

So I just sit back sip on my yurple and puff on my trees

Take a breath and clear my head of all the things I'm questioning
