

# Move Mountains

Lil Wyte

Often we forget how many people in the Bible honestly dealt their own gimmicks and their lack of faith and their struggles.  
Remember Jacob himself wrestled with God in Genesis.  
Remember Paul dealt with the ailment and we are born in his side.  
We came for good Thomas, the one who asked to see the wounds from Christ's hands after the resurrection.

Everything ain't what it seems  
Every little pain came with a dream  
I said in order to fly I needed some wings  
Jumped off the cliff trying to make them believe  
I've been down this road before so many times that I've lost my way  
I was only trying to be a better person than I was on yesterday, yesterday

I've been thinkin bout her lately, wonderin will she listen?  
The beautiful lady that's got a pill addiction  
Seen the picture, been a while and I ain't notice it  
I guess them roxy 30's have taken over her  
She was a queen, she used to have a dream  
Of being on the cover of a Maxim magazine  
And just like us she grew around the way  
Smart too, had a 3.8 GPA  
But later in them teen years she got wild  
That's just the price of being in the cool crowd  
Heard she was drugged and raped when she was found  
The cemetery's where she's at now, damn

Everything ain't what it seems  
Every little pain came with a dream  
I said in order to fly I needed some wings  
Jumped off the cliff trying to make 'em believe  
I've been down this road before so many times that I've lost my way  
I was only trying to be a better person than I was on yesterday, yesterday

It's them days like yesterday  
You tried to change knowing there will be a better way  
You're in your lane, all you gotta do is hold on  
And stay strong when the night seem like it is just too long  
Then your lights get cut off the very next morning  
And your world is never raining, is pouring  
You have no family to fall back on  
So it is hard raising children in a single parent home  
Then you reach out to alcohol looking for support  
And now you on a cup of pills that you can't afford  
Your body's aching, yea I've heard it all before  
Be a better role model to them 2 babies sittin on the floor

Everything ain't what it seems  
Every little pain came with a dream  
I said in order to fly I needed some wings  
Jumped off the cliff trying to make them believe  
I've been down this road before so many times that I've lost my way  
I was only trying to be a better person than I was on yesterday, yesterday

All you gotta do is believe  
With the faith of a mustard seed  
And you can move mountains

You can move mountains

Everything ain't what it seems

Every little pain came with a dream

I said in order to fly I needed some wings

Jumped off the cliff trying to make them believe

I've been down this road before so many times that I've lost my way

I was only trying to be a better person than I was on yesterday, yesterday
