

Oxy Cotton

Lil Wyte

Go on and slip me two Xanax Bars - I'm ready to get full
5th of Crown to wash it down, I'm downtown snapping rolls
Ain't no shame up in my game - in fact I'm mentally deranged
Oxycotton in my system - man I'm feeling kinda strange
Watch me choke up on this dope - Blueberry from Texas
She wanna get up in rotation that's too bad cause I'm stressing
by now its 1:30 am - 11 Percocets just entered me
15 minutes from this second - I'll be crawling on my knees
Laughing at the crowd of all the clowns that be surrounding me
Take another Loritab to calm me down and let me see
Body be relaxed - muscles be loose, and you have stopped the pa
in
No more bitching 'bout your day and work and driving in the rai
n
Put up wit' the fussing and discussion - I plant in your brain
Hypnotize ya minds, like all the rest but I come through the ve

Take a chill pill to slow me down and get back in this game
Gatta be up on ya P's and Q's to even feel it mane

Oxycotton - Xanax Bars - Percocet and Loritab
Valiums - Morphine - Patches - Exctacy - and it's all up for gr

What'cha want - what'cha need - hit me up I got you mane
What'cha want - what'cha need - hit me up I got you mane

Scarecrow, scarecrow whats that you popping?
A powerful pill they call Oxycotton
But it's so tiny, and it got you dragging
Haven't you heard big things come in small packages
I prefer the orange ones with the black O-C
Take two and you can not move up out your seat
Some people melt em down in a needle and shoot 'em up
But I pop 'em with Seroquel like glue, I am stuck

See I'ma pill popper - so I'ma keep poppin' em
Gimme 20 Xanax and I'ma start droppin' em
They ain't no stoppin'em - when they in my system
Mane I really miss 'em - can you help me get 'em
I heard you have Clidina, on that fucking pill shed
Gimme some fuckn Ec' - gimme some Percocets
I need me some four bar, so I can break down
Cause a nigga like me 'finna take it to fight town
