

# To Get Me To You

Lila McCann

Well I I still can remember times  
When the night seemed to surround me  
I was sure the sun would never shine on me  
And I I thought it my destiny

To walk this world alone But now you're here  
With me  
Now you're here with me  
And I don't regret the rain

Or the nights I felt the pain  
Or the tears I had to cry  
Some of those times along the way  
Every road I had to take

Every time my heart would break  
It was just something that I had to get through  
To get me to you  
To get me to you

Well I, I still can recall the days  
When I had no love around me  
Makes me glad for every day I have with you  
And I, I look in your eyes and know

I'm right where I belong  
And I belong with you  
Always belonged with you  
And I don't regret the rain

Or the nights I felt the pain  
Or the tears I had to cry  
Some of those times along the way  
Every road I had to take

Every time my heart would break  
It was just something that I had to get through  
To get me to you  
To get me to you

And if I could I wouldn't change a thing  
Wouldn't change a thing baby  
Because your love was waiting there for me  
Waiting there for me baby

And I don't regret the rain  
Or the nights I felt the pain  
Or the tears I had to cry  
Some of those times along the way

Every road I had to take  
Every time my heart would break  
It was just something that I had to get through  
To get me to you

To get me to you
