You're Gone

Lila McCann

Tell me one sweet lie Tell me our love's just fine And everything will be all right Say you're not gonna leave

That you still love me And we'll start all over tonight That look is in your eyes And all I can hear is the sound of goodbye

You're gone No two ways about it Though you stand in front of me It's real easy to see

That you're gone And it's time to face the truth That my world just fell apart And I don't know what to do You're gone

I could turn my head Forget what we said And all the words that cut like a knife Whether you go or stay

You're gone either way And I'll love you the rest of my life I can tell your mind is set The words you didn't say I will never forget

You're gone No two ways about it Though you stand in front of me It's real easy to see

That you're gone And it's time to face the truth That my world just fell apart And I don't know what to do You're gone

I'll never give up believing And I know one day I'll win you back And you'll love me just like I love you But right now it's a matter of fact

You're gone No two ways about it Though you stand in front of me It's real easy to see That you're gone

And it's time to face the truth That my world just fell apart And I don't know what to do Jištěno z www.txp.cz You re gone
