

Down on you

Lillian Axe

t's the same old aggravation
Undercover love is still a sin (That's right)
I just can't deal with complication
I'm givin' up I'm givin' in

You slipped right through my fingertips
You're just too hard to please

I'm rainin' down on you
Down on the pain that you put me through
Been up and down with you
Down on the love that I thought so true

Oh, it's an impossible situation
Been pushed every way but your direction (No, no)

You stuck a knife in my achin' heart
Then left me here to bleed

Down, down, down on you
Down, down, down, down on you

(Aw, I've had enough of this)
Ow!

You slipped right through my fingertips
Was I too hard to please?

Down, down, down on you
Down, down, down, down on you
Down, down, down on you
Down, down, down, down on you
